ABOUT THE TYPEFACE

Mariné is a geometric sans but with the softness of humanistic strokes. It's mild contrast and multiple different styles allow Mariné to work well as both a text and display font. It also includes an Up version and calligraphic features that add a touch of informality. Mariné is available in an extended family and is the close cousin of Amelia (available at MyFonts.com). All differences between Mariné and Amelia appear in the italic and Up versions.

HONORÉ DE BALZAC

- 20/21 Au milieu de la rue Saint-Denis, presque au coin de la rue du Petit-Lion, existait naguère une de ces maisons précieuses qui donnent aux historiens la facilité de reconstruire par analogie.
- 19/20 Les murs menaçants de cette bicoque semblaient avoir été bariolés d'hiéroglyphes. Quel autre que le flâneur pouvait-il donner aux x et aux v ces caractères qui traçaient sur la façade les pièces de bois triangulaires dessinées dans le badigeon par des lézardes parallèles? Évidemment, au passage des voitures, chacune de ces solives s'agitait dans la mortaise. Ce vénérable édifice était surmonté d'une toiture triangulaire dont aucun modèle ne se verra bientôt à Paris. Cette couverture, tordue par les intempéries du climat parisien, s'avantait de trois pieds sur la rue pour garantir des eaux pluviales le seuil de la porte qui abritait le mur d'un grenier et sa lucarne sans appui. L'étage était construit en planches clouées l'une sur l'autre comme des ardoises, afin sans doute de ne pas charrier une frêle maison. Par une matinée pluvieuse, au mois de mai, un jeune homme, soigneusement enveloppé dans son manteau, se tenait sous l'auvent de la boutique qui se trouvait en face de ce vieux logis, et paraissait l'examiner avec un enthousiasme d'archéologue. A la vérité, 34 ce débris de la bourgeoisie du dix-huitième siècle pouvait offrir à l'observateur plus d'un problème à résoudre. Chaque étage avait sa singularité. Au premier, qui était le plus long, les fenêtres, longues, étroites, rapprochées l'une de l'autre, avaient des volets de bois dans leur partie inférieure, afin de produire ce jour doux et uniforme en faveur duquel un habile marchand prête aux étoffes la couleur de son commerce par ses chalands. Le jeune homme semblait plein de dédain pour l'aspect essentiel de la maison, ses yeux ne s'y étaient pas encore arrêtés sur les fenêtres du second étage, dont les jalousies relevées laissaient passer de grands carreaux en verre de Bohême, de petits rideaux de mousseline qui ne l'intéressaient pas davantage. Son attention se portait particulièrement sur le troisième, sur d'humbles croisées dont le bois travaillé grossièrement avait dû être placé au Conservatoire des arts et métiers pour y indiquer les p
