ABOUT THE TYPEFACE

Mundial translates as **"Worldwide",** this name is a statement: the idea of synthesizing characteristics from different traditions in a single typographic style. Here and there you can see gestures that are clearly associated with different eras and cultures, but not to be confused: the main characteristic of Mundial is the summary, the cohesion and the sum that results in more than each individual part.

Mundial is a typeface for this time in which individual identity marks, are the best aid to build a world together.
